

OMOTOSO FISAYO ESTHER

Data Analyst | SQL, Power BI, Excel, Python | Turning Data into Business Insights

✉ omotosofisayoesther@gmail.com ☎ +234 805 591 2888 🌐 [Fisayo01](#)

📄 [Fisayo-Omotoso](#) 📍 Lagos State, Nigeria

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience analyzing business and operational datasets to uncover trends, improve efficiency, and support decision-making. Skilled in SQL, Power BI, Excel, and Python, with a strong ability to clean, analyze, and visualize data for business impact. Proven track record of identifying inefficiencies, reducing errors, and delivering insights through data-driven analysis.

TECHNICAL SKILLS & CORE COMPETENCIES

Data Analysis: SQL (MySQL), Microsoft Excel (Pivot Tables, VLOOKUP, XLOOKUP, Power Query), Descriptive Analysis.

Database Management: Advanced Querying (JOINS, Wildcards, Group By), Data Cleaning, and Validation.

Data Visualization: Power BI (Interactive Dashboards, KPI Reporting).

Programming: Python (Pandas, NumPy).

Soft Skill: Data Storytelling, Technical Communication, Data Cleaning, Data Modelling, Problem-solving, Database Management, Collaborative Teamwork

PROFESSIONAL EXPERIENCE

Data & Quality Analyst

Oct. 2024 – Present

May & Baker Nigeria Plc

- Analyzed production and quality data to identify trends and reduce recurring defects by 40%
- Monitored and validated real-time datasets to ensure 100% data accuracy for reporting
- Conducted trend analysis on product metrics to detect anomalies and prevent large-scale errors
- Transformed raw production data into structured reports for decision-making
- Maintained and audited datasets to ensure consistency, integrity, and compliance
- Ensured data quality and consistency through validation and formatting check

Data Analyst intern

Jan. 2024 – Sept. 2024

Solace Enterprise

- Collected and analyzed data to support quality control decisions
- Improved data collection processes, increasing efficiency by 20%
- Developed insightful dashboards that track product performance using Power Bi
- Identified patterns in product quality issues, helping reduce customer complaints
- Structured and interpreted datasets for reporting and operational improvements.

KEY PROJECT

Coca-Cola Sales Analysis

Link

- Analyzed 50,000+ transaction records using SQL to evaluate sales performance across regions and product categories
- Identified high-revenue but low-profit products, enabling data-driven pricing and cost optimization strategies
- Used ranking and segmentation techniques to highlight top-performing regions and products
- Delivered insights into the relationship between sales volume, revenue, and profitability to support strategic decisions

Attrition Analysis

Link

- Performed data cleaning and transformation on 30+ HR variables using Power Query to improve data usability and reporting accuracy.
- Developed DAX measures to calculate attrition metrics, workforce distributions, and employee performance indicators.
- Identified overtime as a major attrition driver, with over 53% of employees who left the organization working overtime.
- Discovered that employees aged 26–35 recorded the highest attrition count (600+ cases), highlighting retention challenges among core working-age staff.

Superstore Sales Analysis

Link

- Built SQL queries to calculate revenue, profit margins, and sales contribution across customer segments
- Identified high-sales but low-profit trends, supporting improved pricing strategies
- Designed an interactive Power BI dashboard to track KPIs and business performance
- Improved decision-making by transforming raw data into clear visual insights

COVID-19 Data Analysis

Link

- Applied statistical modeling to COVID-19 datasets, isolating high-risk drivers and identifying epidemiological patterns
- Built visualizations to track patterns and support forecasting insights for public health awareness
- Improved prediction accuracy by 12% through data-driven analysis

EDUCATION

B.Sc. Microbiology — University of Ibadan	2019 - 2024
OND Food Science — Polytechnic Ibadan	2014 - 2016

CERTIFICATION

AptLearn - Full course on Microsoft Excel	2023
Master Microsoft Power BI	2024
Google Data Analytics in-progress
